

MEDI-CAPS INTERNATIONAL SCHOOL, INDORE
SESSION (2026-27)
SUMMER ASSIGNMENT
CLASS-4

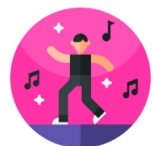

Dear Students,

*"Taking a break from studies once in a while is very important.
It freshens up our body and mind."*

Summer vacation gives students an opportunity to visit new places, increase their general knowledge, and work on school projects. The summer holiday assignment provides a way to stay connected to studies during the break. A holiday assignment is a task given to students to complete during the break. It is intended to improve students' skills and enhance their capabilities.

Some good practices for a healthy and virtuous lifestyle

1. Wake up early and develop a morning routine. Do yoga, meditate or go for a brisk walk.
2. Start learning a new skill like painting, dance, music or public speaking.
3. Play games and sports, and engage in plenty of physical activity—but only in the morning and evening hours..
4. Challenge yourself to finish reading at least a couple of good books during the vacation.

5. Help your parents with household chores and learn useful skills such as organizing your cupboard, filling water bottles, refilling the cooler, and making your bed.
6. Be consistent with your holiday homework. Avoid leaving it until the last day.
7. Eat healthy food, drink plenty of water and have lots of fun.
8. Leave out grains and water for the birds.
9. Show gratitude towards everyone.
10. Plant a sapling in a nearby garden and take care of it throughout the summer.

Some practices to be avoided

1. Don't spend all your time playing video or mobile games.
2. Avoid going out during peak sunshine hours. Try engaging in indoor activities instead.
3. Avoid oversleeping and don't let laziness take over.
